Dear BAIR faculty,

Huawei is sponsoring a graduate fellowship program within BAIR. This program will support four fellowships, providing a stipend plus funds for conference attendance or other research expenses. It is expected that fellowship holders will also be offered summer internships at Huawei's research labs, either in Santa Clara or Hong Kong. Fellowship applications are open to PhD students with a BAIR-affiliated research advisor. Fellowships will commence at the start of the Fall Semester, initially for a one year term, with the possibility of an extension upon review at the end of that period. These fellowships are aimed at supporting students whose research is aligned with Huawei's broad areas of interest, which include machine learning, vision, and natural language processing. For more information about Huawei's areas of interest, see these slides from a presentation by Hang Li, Head of Huawei's Noah's Ark Lab:

[HuaweiFellowships1.pdf](#)
[HuaweiFellowships2.pdf](#)

Please encourage your PhD students to submit applications. An application should include the student's CV and academic transcript, and a one page research proposal. It should be sent as a single pdf file via email to Peter Bartlett at peter@berkeley.edu and CCed to gianna@berkeley.edu with [Huawei Fellowship] and the applicant's last name in the subject line. Applications are due on August 12. They will be reviewed by a committee comprising BAIR and Huawei representatives.

Peter and Trevor

That is great. Thank you.

Hang

Thank you, Peter and Trevor.

Look forward a great collaboration ahead of us.

Best Regards,

Michael Wei
